NORTH-HOLLAND

Author Index – Volumes 41 to 50

Abara, I.O.C., 43:289
Akimoto, Y., 49:165
Alic, J.A., 44:359
Alston, J.M., 43:301
Aoi, J., 49:215
Artigiani, R., 48:111
Ausubel, J.H., 50:113

Backoff, R.W., 45:131
Baker, J.G., 42:261
Baner Johnson, B., 45:1
Beach, E.D., 48:161
Bergson, B.P., 50:171
Berry, B.J.L., 44:111, 46:1, 46:289
Bestushev-Lada, I.V., 41:341
Bhargava, R.K., 41:177
Bhargava, S.C., 41:177, 44:87, 46:279, 49:27
Bobrowski, P., 46:197
Bodger, P.S.. 41:97
Boggess, W.G., 44:17
Bonnieux, F., 43:369
Boyd, R., 48:161
Bretschneider, S., 46:197
Brown, G., 48:259
Brown, H.S., 43:125
Bruzzone, N.D., 41:57
Budnikowski, A., 41:147, 41:257
Bunn, D.W., 49:13
Burton, M., 50:93
Büttner, T., 50:113

Çambel, A.B., 48:1
Campos Lopez, E., 44:291
Caswell, M.F., 43:321
Chiang, J.-T., 41:365, 49:35
Chowdhury, S., 41:71, 42:63
Coates, J.F., 41:189, 42:91, 42:309, 42:413, 43:91, 43:99, 43:205, 44:219, 44:325, 44:429, 45:103, 45:307, 48:103, 48:311, 49:321, 50:105, 50:167, 50:185
Coates, V.T., 41:1
Collingridge, D., 45:169
Condon, P., 50:41

Date, A.W., 48:27
Dathe, J.M., 43:47
Dator, J., 46:59
Debackere, K., 42:133
Debecker, A., 41:111, 46:153
Desai, P.N., 48:177
Detampel, M.J., 49:237
de V. Steyn, H., 46:11
de Wet, G., 46:11
Diamantides, N.D., 42:273, 42:385
Dijkstra, T.K., 42:85, 43:201
Dinar, A., 43:211
Doms, M.E., 49:297
Dror, I., 44:49
Dunne, T., 49:297

Edler, D., 45:255
Ehrnberg, E., 44:27
Esposito, E., 43:1
Evans, D.A., 41:29
Evenson, R.E., 43:337

Faltsman, V.C., 41:309
Farrell, C.J., 44:161
Fauconneau, B., 43:369
Fauré, A., 43:369
Feder, G., 43:215
Filippini, L., 44:283
Fisher, W.A., 42:251
Franses, P.H., 45:287, 46:45
Frey, R.S., 50:151
Frisvold, G.B.. 50:41

Gander, J.P., 49:311
Garrison, W.L., 43:103
Garud, R., 42:133
Gaston, C., 50:79

Zmud, R.W., 42:251
Zunsheng Yin, J., 42:17

Subject Index—Volumes 41 to 50

Abdominal complaints, family physician performance and, 44:315
Absorbing capability, quantitative technology transfer model and, 44:179
Academic communities, 43:206
  technological change and, 44:59
Academic research and teaching productivities, 49:311
Acceptance strategies, developing, 43:47
Accident effects, escalation of, 45:237
Accomplishments books, research impact assessment and, 42:231
Acquired immune deficiency syndrome (AIDS), devastating effects of, 49:229
Acquisitions, going market value of business and, 49:257
Actions, effective, difficulty in implementing, 42:413
Active matrix crystal displays, innovation systems and, 47:229, 47:309
Adaptibility
  of industrial structure, 46:125
  urban transportation planning process and, 45:111
Adaptive control, for international stability, 49:233
Adopter, stochastic cellular automata model of diffusion and, 44:88
Adoption of new technology
  culture effects on, 46:71
  interorganizational relationships and, 46:197
  by U.S. dairy industry, 46:269
Advanced manufacturing technologies, energy consumption patterns and, 49:297
Advertising, economic theory of technological products and, 48:221
Affluence, intelligent manufacturing systems and, 49:195
Africa, technological assessment and, 45:47
African Americans, tuberculosis and, 49:231
Age, telecommuting and, 45:47
Age cycle, innovative capacity and, 44:333
Age of Light, 45:109
Aggregate diffusion process, agricultural innovations and, 43:215
Aggregate innovative capacity, educational infrastructure construction and, 44:333
Aggregate levels
  categorization of system waste at, 44:199
  waste management in India and, 48:285
Aggregate price level, impacts of technical progress and, 46:17
Aggregation, of judgemental forecasts, 49:13
Aggression, adoption of innovation and, 46:91
Agricultural biotechnology, in United States, 50:25
Agricultural extension, 50:111
Agricultural program crops sector, biodegradable polymer resin use and, 48:161
Agriculture
  biological–genetic technology in, 43:337
  biotechnology and, 50:1, 50:25
  biotechnology and technology transfer in, 43:271
  Convention on Biological Diversity and, 50:41
  expert systems and, 43:241
  herbicide and host-plant resistance to plant pathogens and insects and, 50:9
  innovations and, 43:215
  intellectual property rights and technological innovation in, 43:259
  market distortions and technological progress in, 43:301
  plant biotechnology research and, 50:55
  seed–fertilizer adoption decisions and, 43:353
  technology adoption in, 43:289, 43:321
  in 21st century, 50:105
Aircraft
  commercial transport, 43:1
  turbine engines, technology transfer model and, 44:179
Air Force Office of Scientific Research, research impact assessment and, 44:231
Airline industry, suicidality of, 43:91
Air pollutant emissions, from motor vehicles, 50:135
Airports, air transportation system and, 42:213, 43:103
Alaskan oil spill, 49:109
Alaska Wednesday Roundtable, 45:212
Alcoholism, newly emerging diseases and, 49:231
Alonso model, two-group island economy and, 44:405
Amateurs, flawed forecasts and, 45:307
America
  corporate and government, future as pursued by, 47:29
  ethics and, 47:345
    (Rebuttal), 47:345
  new millenium and, 47:115
  technology policy and, 47:35
American life, transformation of, 45:219
American political leadership, generations of, 46:5
Amplitude, 42:409
Analytic hierarchy process, technology choice and, 48:27
Animals, newly emerging diseases and, 49:229
Anthropology
  management science, and psychology, 42:301
  personal travel and, 47:75
Anticipation, applied technology forecasting and, 42:193

Antimaterialism, 45:106
Ant-like behavior, theory of humor and, 50:185
Apocalyptic prophecy, 47:115
Applied technology forecasting, process of, 42:193
Aquaculture, biotechnology and, 43:369
Ariane, payload growth and, 48:269
Arizona, retirement communities in, 43:205
Ark experiment, 45:106
Armed forces, technological assessment and, 45:47
Arrow's learning-by-doing model, two-group island economy and, 44:405
Artifacts
  evolution of information lineages in, 48:109
  market penetration, 46:213
  theory of development of, 44:161
Artificially produced items, intelligent manufacturing systems and, 49:195
Ascending technologies, wide-range innovations and, 44:49
Asia
  technological assessment and, 45:47
  technology policy and, 47:35
Assumptions, contextual discipline and, 47:277
Attacker, performance advantage of, 44:161
Attraction, to regular trajectory in transformed space, 47:49
Australia
  disaster management and, 45:119
  structural influences on innovation, 41:423
Austria, industrial biotechnology in, 50:69
Author/inventor contribution spans, 42:133
Authority
  adoption of innovation and, 46:89
  risk management in China and, 46:103
Authority innovation-decisions, 46:75
Automatically generated programming, information technology revolution and, 44:69
Automation, footwear sector in India and, 48:177
Automation push, expansion of information workforce and, 46:51
Automobiles
  air pollutant emissions from, 50:135
  "Green" generation and, 50:113
Autonomous feedback systems, eco-industry and, 49:165
Autonomy, global system and, 48:319
Autoregressive model, two parameter, 43:203
Auxiliary regression, in selecting between Gompertz and logistic trend curves, 46:45
Aviation industry
  collective well being in, 48:259
  commercial, 48:129

Babyhood to child transition, 47:63
Bacterial threats, 49:229
Baldridge Award, as predictor of technological success of firm, 42:325
Bangladesh, flooding in, 49:89
Banking, data communications networks and, 46:29
Basic instincts, personal travel and, 47:75
Bass model, of innovation diffusion, 44:88
Batching, Millenium Project and, 47:163
Bayesian updates, using precursor events, 43:169
Bhopal, India, 45:237, 48:143
Biases, technology adoption and, 43:289
Bibliometrics
  federal research impact evaluation and, 45:189
  technology opportunities and, 49:237
Bifurcations, in labor market, 44:59
Big Bang/Big Crunch, 49:329
Bi-logistic growth, 47:89
Biodegradable polymer resins, increasing use of, 48:161
Biodiversity, sustainable agriculture and, 50:9
Biological–genetic technology, agriculture and, 43:337
Biological paradigm
  electrical power industry in twenty-first century and, 44:137
  technological progress and, 44:161
Biological resource management, expert systems and, 43:241
Biotechnology
  agriculture and, 43:271, 50:1, 50:25
  aquaculture and, 43:369
  capital market response to R&D process and, 49:75
  forestry and, 50:79
  in German speaking countries, 48:45
  industrial, 50:69
  plant, 50:55
Birth processes
  competitive diffusion and, 48:243
  industry and, 44:161
Birth rates, imbalance in, 49:229
Black box, technology, 46:221
Blurred boundaries, technology policy and, 47:39
Boeing Aircraft Company, strategic decisions and, 48:129
Borderless global market, innovation diffusion in, 45:221
Bottom up approach
  technological development in Korea and, 45:31
  transition from hierarchy and, 45:210
Brain drain, 42:273
Brazil, technology futures in, 45:1
Breakthrough industries, in Japan, 49:147
Britain, Prestel system in, 47:217
BTX system, 47:217
Bubble economy, in Japan, 49:113, 49:127
Buddhism, 45:104
Bureaucratic agenda, aviation industry and, 48:259
Bureau of Labor Statistics, high technology, 44:60

Buses, vehicle density forecasts for, 50:135
Businesses
  business strategies in Japan, 49:113
  going market value of, 49:257
Business forecasting, techniques commonly used in, 44:2
Business strategies, in developing countries, 45:151

Cable programs, about the future, 48:311
California
  innovative hot spots and, 43:75
  modeling choice of telecommuting frequency in, 49:49
  Silicon Valley and, 45:313
  telecommuting frequency and impacts for state employees, 45:275
Canada
  futures movement in, 45:217
  plant breeders' rights and, 43:259
  structural influences on innovation, 41:423
Canonization, of saints, 46:189
Capability development, integration of business and technology strategies and, 45:151
Capacity expansion, substitution between technologies and, 42:283
Capital
  dynamic interactional relationships between knowledge and, 43:63
  flight of, 42:291
  incremental, 47:265
  in two-group island economy, 42:405
Capital intensity, North Sea oil development and, 45:169
Capitalism
  burying, 42:419
  productive efficiency under, 46:139
Capital markets, response of to R&D processs, 49:75
Cargo aircraft productivity, comparison of two composite measures of technology and, 44:147
Car ownership, "Green" generation and, 50:113
Catastrophic crises, technical organizations and, 48:143
Catching-up effect, 47:185
Catholic church, millenarian cycles in dynamics of, 46:189
Causal loops, 42:409
Cause and effect, mindscapes in management and, 50:190
Cave instinct, 47:75
CAX technologies, 44:359
Cellular automata, innovation diffusion and, 44:87
Cellular communications industry, going market value and, 49:257
Census Bureau, issues faced by, 44:325
Central America, community sustainability in, 44:291
Centralized bureaucracies, community sustainability and, 44:291
Centralized decision making, North Sea oil development and, 45:169
Central planning, transition from hierarchy and, 45:207
Ceramic superconducting materials, process of applied technology forecasting and, 42:193
